Maëva Design was created in September 2005 by its founder's pure desire for creativity. Eve's aspiration to offer custom handbags formed the concept for her company. Maëva Design offers a "create-your-own-handbag" concept where the clients choose from a collection of handbag styles, fabrics, and handles and has the option to beautify their creation. Maëva Design intends to "Promote human connections, friendships and service through the creation of their handbags". It is with great excitement, that a new program, fully embracing this mission, was created to honor those in the US military and their loved ones who mentally support them; **Maëva Service**.

This venture was inspired by Maj. Dan Carroll of the United States Army, who requested for Maëva Design to convert his fatigues into handbags and accessories as gifts for his mother and sister. The company gladly and speedily designed two handbags and two change purses using the fabric, patches and buttons; and the results were *phenomenal*. Maëva immediately realized that their creations could be more than everyday handbags; they would be constant reminders of loved ones that have just returned, are presently serving, or have sacrificed their lives for our country. Maëva Design is also proudly donating **10% of all proceeds** to charities linked with the US Military and associated organizations.

I look forward to discuss Maëva's details with you and thank you in advance for your support.

Au plaisir...
